

Zax Economy Custom Message System

Number/Message Inserts with a Protective Lens

Changeable and durable.

A clear, matte-finish acrylic top plate protects the face of the sign as well as the interchangeable sign inserts.

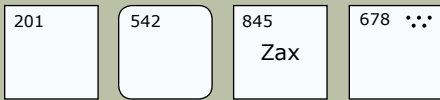

Many sub-surface color varieties combined with white or black 1/32" raised Helvetica numerals make these functional signs highly attractive.

Create your own digital message inserts. Heavyweight (100 lb.) paper inserts or vinyl lettered plastic inserts are available. Grade II Raster™ Braille is also available to meet your ADA requirements. See below.

NOTE: Inserts are not included in the module pricing at right.

Extra Charges for Options:

Radius Corners add.....\$2.95
 ADA Raster Braille add.....\$6.50
