

Custom and Standard Laser-Etched ClassBrass Signs

Impressive!

Zax "ClassBrass" Laser-Etched signs are so distinguished in appearance that they project an immediate image of quality.

Superfine detail is recreated crisply and distinctively with Zax's "Laser-Etched" technology.

These signs are made of solid premium brass in .025" and .050" thickness. Their satin finish surface is lacquered and then baked. The etched image is blackened to create a rich look. 36 available type styles are pictured on page 7A.

Custom "ClassBrass" plates are available in sizes from 1" x 4" to 24" x 42" with the option of mounting on solid oak or walnut hardwood. These optional wooden panels are customized to fit your ClassBrass Sign in thicknesses of 3/4" thick (deep) for plates 12" x 14" or smaller or 1-1/2" thick for larger sized plates.

Standard Size ClassBrass Wall & Donor Signs

Available with or without borders.

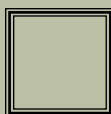

Choose from six standard sizes and eight available border designs. Wording and / or numbers are Laser-Etched with distinctive quality. Available type styles are on page 6A. "ClassBrass" specifications and characteristics are described above.
