

# Custom Designed Recognition Products

## FOR MORE THAN FIFTY YEARS...

...Zax has been providing custom donor recognition products to organizations across the United States and Canada - with great pride in our uncompromising craftsmanship, quality and service.

Churches, universities, hospitals, schools and so many other businesses and organizations have looked to Zax to design and custom-create distinctive displays which recognize their contributors in an elegant and permanent way.

Each Zax product is a unique combination of element and design, created to meet your specific needs and setting.

We thank you for reviewing some of our recognition walls, plaques, memory books and donor trees as examples of what our staff, in partnership with you, can create.

The Staff of Zax Signage and Recognition Products

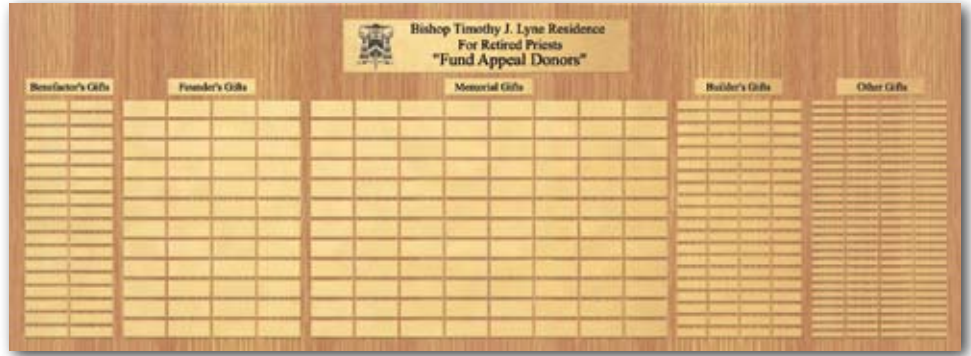

Zax also offers standard-sized ClassBrass-plaques, Multi-Name MetalGraph plaques, MarbleGraph plaques, Trees of Life and Cast Bronze Products as more economical alternatives for you, our valued customers.

Price quotes can be developed based upon a description of your needs (quantity of names, number of categories, wording of header and sub-headers and type of wood).

**Call now to describe your needs and explore the possibilities!**

**From concept to finished product... let us help you with your Donor Wall Requirements**

28 Charron Avenue

Black and white line art rendering or colorized rendering... We will custom design a plaque to fit your individual needs.

Various levels of giving are distinguished by placement and plate size. See Holy Assumption Organ Fund plaque below. The larger plate sizes (4" w x 2"h) indicate the highest level of giving.

Combinations of ClassBrass and Oak Wood project both warmth and elegance. Laser-etched, multi-name listings, as shown at the right, are very popular...and are reasonably priced.

The Cathedral of Hope plaque is an example of one of our most unique creations. It is a framed MarbleGraph panel with an integrated Book of Memory.
